

## **WELFARE OF SWIMMERS**

In order to comply with BPL and British Swimming requirements, photography or videography is not permitted at any time on poolside, in changing rooms or from viewing areas by members or accompanying persons during training sessions.

Swimmers are allowed to take a device on to poolside whilst competing at galas however the camera lens must be obscured.

Please can we remind our children to get changed after their session has finished and not to play in changing areas.

Please remember that no persons, swimmers or accompanying adults are allowed on to poolside until a BOBSC lifeguard is present. Can all accompanying adults please remain off poolside until the pool is set up and ready for the session to begin. We are grateful to the parents who volunteer to help set the pool up ready at each session and if anyone else would like to volunteer to help with this or any other role within the club please let one of the committee members know in order that we can make the necessary arrangements for training.

I would like to remind you all that as a club BOBSC and BPL ask you to refrain from coaching your children from the poolside or telling them where they need to swim in the lanes, training is a time for working on skills and technique not speed and we have an excellent team of qualified and competent coaches to do this.

Thank you for your continued support in keeping our sport safe

Thank you for taking the time to read this.
